

DuraSyn Synthetic Paper

DuraSyn is a co-extruded and multi-layered Polypropylene synthetic paper with added polyester layers for rigidity. Resembling paper in appearance, it capitalizes on providing excellent durability with superior resistance to tear, moisture and weather. It brings a serious graphic impact to the market and offers outstanding crisp printability capabilities, making it an exceptional choice for various printing applications.

WHY IT'S THE BEST...

- ❖ Improved Printability with amazing Bright White Vibrancy
- ❖ Guaranteed less Make Ready waste reducing overall project costs
- ❖ No Pre-Prime Needed
- ❖ HP Certified
- ❖ Faster Dry and Speed Times
- ❖ Consistent Double Sided Finish
- ❖ Enhanced Durability
- ❖ Longer Shelf Life: 1-2 years

EXCELLENT FOR APPLICATIONS SUCH AS...

- ❖ Commercial Indoor and Outdoor Printing
- ❖ Retail & Packaging
- ❖ Identification & Security
- ❖ Tags & Labels
