- Smooth for Optimal Press Performance and Printability
- Handles wider temperature range
- Highly Recyclable

Meets Regulatory Standards

- European REACH
- RoHS 3
- EN 71-3 Toy Safety
- CA Proposition 65

3 Advantages of using Dura-Print vs. Styrene

- ✓ Dura-print is highly recyclable making it environmentally friendly compared to ecologically unfriendly Styrene
- ✓ Dura-Print is exceptionally tough, durable and resistant against environmental stress vs. Styrene can easily become brittle and crack under environmental stress.
- ✓ Dura-Print has a high level of heat resistance vs. Styrene's poor thermal stability.

**Exclusively designed for:
Lithographic, Silk Screen & Digital Printing**
